EBH

Product Name: Ethylene Bis-12-Hydroxystearamide

Molecular formula: C₃₈H₇₆N₂O₄

Cas. no.: 123-26-2

Other Name:

N,N'-Ethylenebis(12-hydroxystearic amide), N,N'-Ethylenebis-12-hydroxystearamide;
Ethylene Bis(12-hydroxystearic acidamide); Octadecanamide,N,N'-ethylenebis[12-hydroxy- (7CI,8CI)

Specification:

Item	Standard
Appearance	Yellowish powder or micro granular
Melting point °C	≥134
Acid Value mgKOH/g	≤8
Amine Value mgKOH/g	≤8

Main function:

1. EBH prevents exposure of fiberglass for PA, PBT, PET, PP, ABS,PC, POM reinforced by fiberglass and improve the smoothness and reduce the processing temperature.
2. It is used as internal lubricant and mold release agent for PVC, PP, PS. etc.
3. Can be used as dispersant for plastic dyeing and masterbatch.

Packing:

25kg or 400kg/bag
