Section 4 First Aid Measures

After skin contact	Immediate flush skin with plenty of water. Remove and isolate contaminated clothing and shoes. If irritation persists, get medical attention immediately. For minor skin contact, avoid spreading material on unaffected skin. Wash clothing separately before reuse.
After eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Assure adequate flushing of the eyes by separating the eyelids with fingers. Get medical advice.
After ingestion	If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Loosen tight clothing such as a collar, tie, belt or waistband the substance. Seek immediate medical attention. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.
After inhalation	Move to fresh air. Oxygen or artificial respiration if needed. Get immediate medical attention.

Section 5 Fire Fighting Measures

Hazardous products of combustion	Borane/ boron oxides, Sodium oxides.
Extinguishing method	Water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Special protective equipment	Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus , protective clothing and face mask.

Section 6 Accidental Release Measure

Personal protective measures	Ensure adequate ventilation. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering. Keep unnecessary personnel away.
Environmental protective measures	Prevent further leakage or spillage if safe to do so. Do not allow material to be released to the environment without proper governmental permits.
Methods for taking in and cleaning up	Sweep up, then place into a suitable container for disposal. Avoid generating dusty conditions. Provide ventilation. Clean contaminated surface thoroughly.

Section 7 Handling and Storage

Handling	Avoid contact with skin, eyes, mucous membranes and clothing. In case of insufficient ventilation, wear Suitable respiratory equipment if ingested. Avoid formation of dust and aerosols.
Storage	Keep in a cool, dry, well-ventilated place. Keep tightly closed until used. Store away from incompatible substance such as reducing agents, heavy metal salts.

Section 8 Exposure Controls/Personal Protection

Engineering Controls	Do not get this material in contact with skin, Do not get this material on clothing, Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.
Respiratory protection	When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
