

Technical Data Sheet

Ammonium Bicarbonate

Formula: NH_4HCO_3 (Food Grade)
M.W.: 79.06
Appearance: Colorless transparent crystals or white crystalline powder.
Not stable when temperature is very high at 60 Deg C.; slightly moisture absorbent; easily soluble in water and solution is alkali.
CAS No.: 1066-33-7

Specifications: GB 1888-2008

NH_4HCO_3 :	99.2-100.5%
Chloride (as Cl):	0.003% max
Compound of Sulfur (as SO_4):	0.007% max
Arsenic (as As):	0.0002% max
Heavy Metals (as Pb):	0.0005% max
Non Volatile Matter:	0.05% max

Package: in 25 kg net PP woven bags with inner lining.

Uses: In food industries as Alkali; Swelling; Buffering; Inflating agent etc.

Distributor:
